APPOINTMENT OF SENIOR GEOLOGIST (TECHNICAL)

FairStar Resources Ltd is pleased to announce to the market the appointment of globally experienced **Mr. Mahendra Pal** M.Sc, FAusIMM, MSGAT (India) to the above position.

Mr. Pal's appointment coincides with the commencement of our drilling program at the Mt Padbury uranium project and the ongoing planning and exploration at the exciting gold projects at Kurnalpi and Spinifex Well. His extensive professional career includes senior exploration management positions both in Australia and overseas.

He is highly versatile and has experience in the exploration and mining of **copper, lead, zinc, uranium, gold, iron ore, oil, shale, etc.**

After completing Master's degree in 1962 from the University of Rajasthan (India) he worked with various, well known, Indian organisations: Geological Survey of India, Indian Bureau of Mines, Hindustan Zinc Limited (1962 – 1964), NMDC Limited and Hindustan Copper Limited (1964 – 1969). In 1969 on the request of Queensland Mines Limited he moved to Australia to work on the company's uranium and base metal areas in Queensland. In mid 1970 he joined Rio Tinto (erstwhile CRA Limited) Limited to work at the company's iron ore mines (Hamersley Iron Pty Limited) in Pilbara, where he worked till the end of 1980 as Principal Geologist looking after the exploration and mining geology department and discovered several concealed iron ore bodies. At the end of 1980 he moved to ESSO (an Australian subsidiary of the EXXON) to work on ESSO's Rundle oil shale project feasibility study, where he worked till the end of 1984 as a Principal and Chief Geologist. In 1985 he re-joined Rio Tinto (CRA and Hancock/Wright Joint venture). With Rio Tinto (Hamersley Iron Pty Limited) he worked as a manager with various titles till the end of 1999. In January 2000 Mr. Pal started his consulting business (trading as SAI Geo-Consultancy - ABN 31 739 279 485).

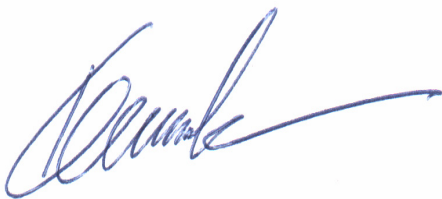

Since January 2000 he has been a geological consultant, within Australia, to Airon Energy Limited, Centrex Metals Ltd., South Australia, Rio Tinto Exploration, Hamersley Iron, Consolidated Minerals, Golden West Resources Ltd., Sinosteel Australia Ltd., Sumitomo Corporation, FairStar Resources Ltd., and several small companies in Western Australia and overseas as a Technical Adviser to Rio Tinto Orissa Mining Limited (a Rio Tinto Joint Venture with Orissa Mining Corporation), Orissa; Tata Iron & Steel Ltd., India; International Minerals and Consulting Company, Iran; Oswal Brasil Refinaria de Petróleo, Brazil, etc. Additionally, on the request of NMDC limited and Hindustan Zinc Limited, Mr. Pal has examined these companies' iron and lead/zinc/gold areas respectively.

Mr. Pal is a

- Fellow of the Australasian Institute of Mining Metallurgy (AusIMM), Australia
- Member of the Society of Geoscientists and Allied Technologists, India
- Member of the Advisory Board: Centre for Exploration Targeting, the University of Western Australia.
- AusIMM Representative to the Standards Australia –Iron Ore Committee
- Committee Member of Geoconferences (WA) Inc.

.....End.....

Yours faithfully

Kenneth M Allen
Company Secretary
