## **MARKET RELEASE TO ASX**

### **Re: Market Update**

FairStar confirms, resulting from the Directors being of the firm belief and opinion, that the company anticipated being in a position to announce funding closure progress.

This means that a definitive announcement outlining the details of the funding arrangements and material corporate transaction, referred to previously, will not be made today.

This delay is due to the complex interdependencies relating to corporate elements of the transaction and its legal closure which remains ongoing.

The Company anticipates a final announcement shortly.
